EXPERIENCE

EDUNET FOUNDATION *Via IBM* | Cloud Computing Intern
Jan 2023 – Mar 2023
- Developed and implemented an attendance System using Cloud Computing, resulting in streamlined data management and improved efficiency.
- Designed the system architecture and database schema, and developed the front-end user interface and back-end API using React and Node.js.
- Presented the attendance system to the management team, giving a presentation on the system architecture, features, and benefits.
- Received positive feedback on the system and the presentation from the management team.

SHRITEK INNOVATIONS | Full Stack Developer Intern
Aug 2022 – Dec 2022
- Developed a web app using React.js, Node.js, and MySQL to extract and translate text from images using NLP and OCR.
- Guided a team of 3 interns in web app development, managing tasks, meetings, feedback, conflict resolution, and project alignment.
- Presented the web application to management, outlining system architecture, features, and benefits. Received positive feedback on both the system and presentation.
- Experience with the following full-stack development technologies: React, Node.js, MySQL.

PROJECTS

RESUME-PARSER | Class Project
SEP 2022
- Designed to revolutionize candidate screening, efficiently extracting critical details including Name, Address, Email, Phone Number, Skills, and Education from resumes tailored to distinct job profiles.
- Demonstrates my holistic approach to problem-solving, combining front-end and back-end skills to optimize recruitment workflows and enhance the candidate selection process.

EMPLOYEE MANAGEMENT SYSTEM | Class Project
JAN 2022
- Developed an employee record management system using HTML, CSS, JavaScript, and PHP.
- The system manages structured employee data including name, address, phone, email, job, department, and salary.
- Enables secure search, addition, update, and deletion of employees.

LEETCODE | Solving DSA Problem Using C++
JUL 2023 – AUG 2023
- In a month, solved 100+ easy and medium-level problems, highlighting strong problem-solving skills and commitment to ongoing learning.

ADDITIONAL INFORMATION
- Agile problem solver adept at addressing business challenges. Strong analytical and communication skills. Timely code delivery, active collaboration, and solution implementation.

EDUCATION

VISVESVARAYA TECHNOLOGICAL UNIVERSITY- 2019 - 2023
- B.E in Computer Science - CGPA: 7.45

+2 H/S LAXMIPUR [BSEB-2019]
- Intermediate - 69.4 %

+2 H/S LAXMIPUR [BSEB-2016]
- SSC/10th - 75 %

SKILLS

PROGRAMMING
Python • JAVA • C++ • JavaScript
Node.js • React.js • HTML5 • CSS
Angular • Vue.js • RESTful APIs

TECHNOLOGY
Git • GitHub • MongoDB • AWS
SQL • Linux • IBM Cloud
MERN Stack • Docker • Socket.io

FAMILIARITY
PHP • Data Science • CI/CD
Android Studio • LaTex • Google Cloud
